Dear

OPSEC THREAT BRIEFING

During the recent American Society for Industrial Security (ASIS) conference at Dallas, Texas, Mr. Steven Brooks, of Rockwell Hanford Operations (Rockwell) had the opportunity to speak with [redacted] an OPSEC specialist for your agency. [redacted] commented that he has developed a presentation on Soviet Espionage in Industry which he has provided to defense contractors in target environments.

The Department of Energy, Richland Operations Office, has a high interest in this area and we would like to invite [redacted] to give this presentation at Richland on February 20-21, 1986. Our attendees will include U.S. Department of Energy and contractor management.

All attendees have security clearances at the Secret level, and a secure presentation facility is available.

Arrangements can be made to reimburse any expenses [redacted] would incur in traveling to our location. If [redacted] is available, please have him contact Mr. Steven Brooks, on FTS 444-5404 to finalize the arrangements.

Very truly yours,

Kenneth H. Jackson, Director  
Safeguards and Security Division
